SECTION-A

READING SKILLS (20 MARKS)

1. **Read the following text.** (10 m)
 - (1) The story of Grace Darling has captured imaginations for over a hundred years. Grace was an ordinary young woman who was boldly and unequivocally labelled a 'heroine' after the events of a stormy night in 1838. Being the daughter of a lighthouse keeper and having lived in various lighthouses, Grace was used to the harsh and dangerous environment around her. However, she had never experienced real danger until the night of the 7th September 1838 — the night that she entered the history books.
 - (2) On the 5th September the steamship SS Forfarshire set off from Hull to Dundee. On board the vessel were 60 crew members and passengers as well as containers of valuable cargo. Disaster struck the next day when the ship's boiler began to leak and by the morning of the 7th September the engine had stopped. The Forfarshire began to drift. Suddenly at about 4 a.m., there was a thunderous crash as the steamship collided with Big Harcar Rock. The impact was sudden and there was no time for the passengers to be called from their cabins and into smaller boats that would have taken them to safety.
Within 15 minutes, the ship had broken in two. The sea waves pounded relentlessly at the fragile remnants of the ship until it had been reduced to a disintegrating wreck. The back half of the boat was swept away by the billowing waves and was quickly overpowered. The 48 people on board lost their fight for survival and were tragically consumed by the raging sea.
 - (3) That night, Grace Darling and her parents were in the lighthouse. They knew a fierce storm was blowing and they watched as huge waves battered their lighthouse walls. Grace who knew the sea intimately, who, within

minutes of being in the sea's presence could tell the mood it was in, who read the signs and predicted its behaviour, had already sensed that something sinister was brewing. As a result, Grace stood by the lighthouse window that night and watched nervously as her long-time companion transformed into an unrecognisable and brutal force of death. It wasn't long before Grace saw some desperate and shadowy figures waving, their cries inaudible above the deafening crash of the savage sea.

- (4) Grace's father knew that the local lifeboat service would not be able to launch their ship because of the brutal conditions; if these people were to have any chance of survival then he and Grace were their only hope. Armed with blankets to warm any survivors, William and Grace took their tiny rowing boat and went into the vast and wild sea. Each wave appeared bigger than the last and the force of the rain stung their cheeks. It was almost impossible to see where they were heading and the boat was being thrown off course constantly. They knew the area around the Farne Islands was notorious for being a ship's graveyard and yet they rowed with determination towards almost certain death.
- (5) As they approached the scene of the disaster, William went into the water to attempt to pull as many survivors into their boat as possible whilst Grace rowed frantically backwards and forwards just so she could stay in the same place and not crash into the reef. The storm whirled around her and the waves were like mountains. It was too late for many of the victims but William and Grace rescued nine people that night and rowed them back to safety. They arrived back to the lighthouse exhausted yet safely. Grace worked hard to care for the victims before they were returned to the mainland.
- (6) Within a few days of the rescue, news of Grace's bravery had spread across the country. Newspaper reporters flocked to the village wanting to follow her every move. Requests for her to visit different places flooded in and many artists wanted her to sit for portraits. Such extraordinary bravery was a source of inspiration for many. Queen Victoria sent her £50 and she was awarded gold medals from a number of societies. However, Grace soon became increasingly weary of all attention and the commitments that came with it, feeling that she was unable to live a normal life any more. In a cruel twist of fate, Grace Darling succumbed to tuberculosis a mere four years later.

2. Read the following text. (10 m)

- (1) The Royal National Lifeboat Institution (RNLI) is the charity that saves lives at sea; they provide an on call, 24-hour, lifeboat search and rescue service and a seasonal lifeguard service. The vision of the RNLI has always been the same since its start in 1824: to end the preventable loss of life at sea.
- (2) In 2013 there was an average of 23 RNLI lifeboats launched each day in the UK and across the year that total was 8,304. On an average, 23 rescues take place every day with 325 lives being saved in 2013 alone. These statistics surely prove that this type of service is fundamental to our safety.
- (3) The RNLI have four core values and their work is driven by these values. All staff and volunteers are asked to strive for excellence in all they do. They are required to be selfless and put others before their own needs. They need to be dependable, always available and committed to saving lives. Being trustworthy is also a key value at the RNLI and staff and volunteers are asked to deal with their everyday affairs with transparency, integrity and impartiality. The RNLI is a charity and so it is important that the donations that people so generously entrust to the charity are used efficiently and wisely. Lastly, team members must be courageous as they are frequently putting themselves into dangerous situations.

- (4) Since the RNLI's start in 1824, lifeboats and lifeguards have saved more than 140,000 lives. Although these figures are encouraging, it doesn't always translate to donations. None of the RNLI's work could happen without the generous gifts of the people of the UK. Some people leave money to the RNLI in their wills, others give one off donations and others give a little each month - every penny goes back into saving lives. The RNLI do not seek funding from central government and so they are dependent on donations as their income. Every time they have to deploy a lifeboat and lifeguards, it costs money. Some may say 'it is nothing to do with me' but nobody knows when we too may rely on such a service.
- (5) Interestingly in 2013, 50% of all launches were to leisure craft users for example, powerboats, yachts, body boarders, surfers, etc. Although some people who find themselves in trouble do have the relevant experience and equipment to be in the sea, most do not. The RNLI are often called out to incidents where people have got into trouble through 'high jinx' or through not having awareness of the conditions of the sea. Without a service like the RNLI many precious lives would have been lost.

Answer the following questions, based on the passage.

 A. In 2013, the number of lives saved was 325.
 B. 23 lifeboats were launched every day on an average.
 C. The number of lives saved across the year of 2013 was 8,304.
 D. On an average 23 rescue attempts take place every day.

Subject: Increasing Pollution and Uncleanliness

Sir,

Through the columns of your esteemed newspaper I would like to draw the attention of concerned authorities towards the degrading uncleanliness and pollution in our city Chandigarh. Chandigarh is known as the 'City Beautiful' and we are rightly proud of being privileged citizens of this modern city. Of late, however, some disturbing trends have been noticed. The volume of vehicular traffic has spurted manifold. Many factories have sprung up in the vicinity of the city. The smoke emitted by the chimneys of these factories or spewed out by the fast plying vehicles has made the lives of citizens miserable. Pollution has increased to intolerable limits. The heaps of garbage and unclean roads compound the problem. Some voluntary organisations have organised cleanliness campaigns in Sector 7 and 14 and are creating social awareness by educating the masses against the dangers of pollution. Kindly publish this letter with your editorial comments to make the citizens aware of these drawbacks. I do hope that the people of Chandigarh will cooperate to keep their city clean.

Thank you

Yours faithfully

Anjali

5. A. The given bar graph shows the most preferred food item choices of customers of a famous food joint. The given number of people is in hundreds and the data states about four most preferred choices. If we look at the data, around 100 people chose lasagna as their main course. However, pizza stands out as the most preferred choice as main course as out of 250 people, 200 ordered it. Next most preferred item is burger which was ordered by 175 people. Soup seems like the most preferred choice of appetizer as all of the 250 people have ordered it.

To compare the given data pizza and burger are almost equally preferred by the customers as there is a difference of only 25 people between these choices. Lasagna being second and possibly the least preferred food item only garners 100 customers. The given food choices are of appetizer and main course and by analysing the data we can see that the only appetizer available in the data is ordered and preferred by almost all.

B. Valli was a determined, confident and brave girl. She was also a good planner and executioner. She sacrificed a lot of things to achieve her dream. For example, she curbed the temptation to buy sweets and riding on the merry-go-round in the fair so that she could save money for the bus ride. Sacrificing all these things at such a tender age is very difficult for a child. She also behaved confidently in the bus and did not get bobbed down in the presence of elders. When the bus reached the town, Valli did not succumb to the temptation of going out to explore the town or having a drink. She did this as she had a limited amount of money which she wanted to save for her return journey. So, Valli used her money wisely. When the conductor offered her a drink, she showed good manners by refusing to have it.

11. A. Education plays a very crucial role in the overall development of a person. It increases a person's knowledge in different fields of study. Being educated elevates the personalities of individuals. It helps in pursuing our dreams, and correct education and guidance can help us achieve our goals. In the case of Bholi, education changed her overall personality for good reasons. She was no longer a girl who always feared others, but she became a confident girl. She no longer stammered and could speak confidently. She even stood up for herself and her father's pride, and all these changes came into her life after she was educated. In the case of Ebright, he was already a studious child and was keen on acquiring knowledge about different fields. His mother pushed his interest and helped him become a scientist. The correct guidance from his teachers and his mother and his determination to learn new things fuel his curiosity. And in the end, Ebright discovered that DNA is the blueprint for life and became a successful scientist. Both Bholi and Ebright achieved their goals with the help of education.

B. Mrs Pumphrey was a rich woman who loved her dog very much. She loved to live a comfortable and lavish life and also wanted her dog to spend a similar one. She had maintained a wardrobe full of fancy fur coats, dresses, beds, etc. for Tricki. Apart from this, she used to overfeed Tricki out of her love and concern. She used to serve him cod-liver oil and malt between the main meals and Horlicks after dinner to give him strength. She never realised that Tricki was a greedy dog and this would spoil his health. She could not even refuse to answer Tricki drooling for cream cakes and chocolates. Her overfeeding worsened Tricki's condition. This made the dog lazy, inactive and obese. He used to lie on his rug and pant all day long. Mrs Pumphrey fed him excessively, spoiling Tricki's health to such an extent that he had to be hospitalised. Even in the hospital she continued to convey Tricki her love through eggs, wine and brandy. Her fondness and care for Tricki proved that excess of everything made him fall sick.
